### **DETAILED ACTION**

This is the second office action for U.S. Application 10/765,609 filed by Kevin Taylor on January 26, 2004.

#### ***Election/Restrictions***

Applicant's election of Group IV shown in claims 1, 5, 6, 10, 11, and 15 in the reply filed on January 30, 2006 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

#### ***Information Disclosure Statement***

The listing of references in the specification is not a proper information disclosure statement. 37 CFR 1.98(b) requires a list of all patents, publications, or other information submitted for consideration by the Office, and MPEP § 609.04(a) states, "the list may not be incorporated into the specification but must be submitted in a separate paper." Therefore, unless the references have been cited by the examiner on form PTO-892, they have not been considered.

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 5, 6, 10, 11, and 15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 1 recites the limitation "the vertex" in lines 6 and 11. There is insufficient antecedent basis for this limitation in the claim. Also, line 5 of claim 1 recites the limitation "said substantially planar member". It is not clear whether Applicant is referring to the first or second substantially planar member. The claims are being examined to the best extent possible.

#### ***Allowable Subject Matter***

Claims 1, 5, 6, 10, 11, and 15 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

#### ***Conclusion***

The following patents, cited but not relied upon, are considered pertinent:

- U.S. Patent 6,470,613 B1 to Wildrick
- U.S. Patent 6,347,774 B1 to van der Molen
- U.S. Patent 6,899,304 B2 to Bellmore et al.
- U.S. Patent 6,923,406 B2 to Akizuki
- U.S. Patent D478,805S to Winig et al.

The above patents disclose various clips.
